GREETINGS

from the City of Tulips

THERE is a time each year when the Tulip takes command of the clean, thrifty city of Holland, Michigan—a time when the festival spirit reigns and hundreds of thousands of people invade this lake-shore community to drink in the beauties of spring-time's most welcome flower. For here the Tulip is to be seen in profusion such as nowhere else in America, —a city bedecked in the glamorous color of millions of Tulips, presenting a sight that visitors find entrancing and completely captivating.

To entertain its avalanche of guests, Holland provides a daily round of festivities. The city goes "native" and dons its ancestral garb; everywhere are men and women, girls and boys, in typical Dutch dress, each of different pattern, yet all a part of an authentic picture—a gay, moving picture that provides for the Tulip a most appropriate and picturesque background. So highly regarded is the flower that has made Holland famous, that nothing cheap or artificial is allowed to mar the festival; the Tulip, alone, is Queen, and to its glory the city of Holland dedicates itself every year in May.

Holland's Burge-meester, who is here shown in his official Dutch dress, asks us to extend his greetings to the many recipients of this catalog, and to bid you "welkom" to Holland's Tulip Festival.

IT'S TULIP TIME IN HOLLAND EVERY YEAR IN MAY

Nelis Nurseries play a quiet but important part in this annual Tulip festival. Not only do we supply the millions of Tulips which are to be seen throughout the city of Holland, but our mass plantings of over 400 varieties are the chief

point of interest to the thousands upon thousands of visitors. In its extensiveness of varieties and gorgeousness of color, the Nelis Tulip farm is undoubtedly the most colorful mass display of Tulips to be seen anywhere in the world.

Use this catalog *Nau* to add to the riches of your garden

ONE cannot talk about the Tulip without wanting to gild it with glowing adjectives. But this glorious spring flower is too universally admired to need any eulogy; it is not a case of whether you want your garden to be enriched with the stateliness of its blooms and the grandeur of its color, but of where to call a halt in the unlimited choice of varieties that is at your command. That, of course, is a matter of taste and means, and to the end of making your choice a happy and intelligent one this catalog is dedicated.

Of one thing you should be sure. Get your Tulip bulbs from a source that has **your** interest at heart,—a source that is in the Tulip business for aesthetic as well as commercial reasons, and which will give you the best to be had for the sake of winning your gratitude and continued patronage. There is so little, if any, money to be saved by buying inferior bulbs that you can ill afford to run the risk of disappointment over results.

YOU'LL HAVE BEST RESULTS WITH NELIS' MICHIGAN-GROWN BULBS

When you buy Nelis bulbs you have the advantage of dealing direct with the grower, thereby having the satisfaction of obtaining the cream of the crop. The smaller sizes that might otherwise be sold to you are used on the farm in next year's plantings. Those who obtain their bulbs from outside sources have no control over their supply; they are obliged to sell just what they get. Having no work to do in growing them, and little or no responsibility for the results that are obtained, there cannot be the same pride taken in filling your order that we, who actually grow the bulbs, experience.

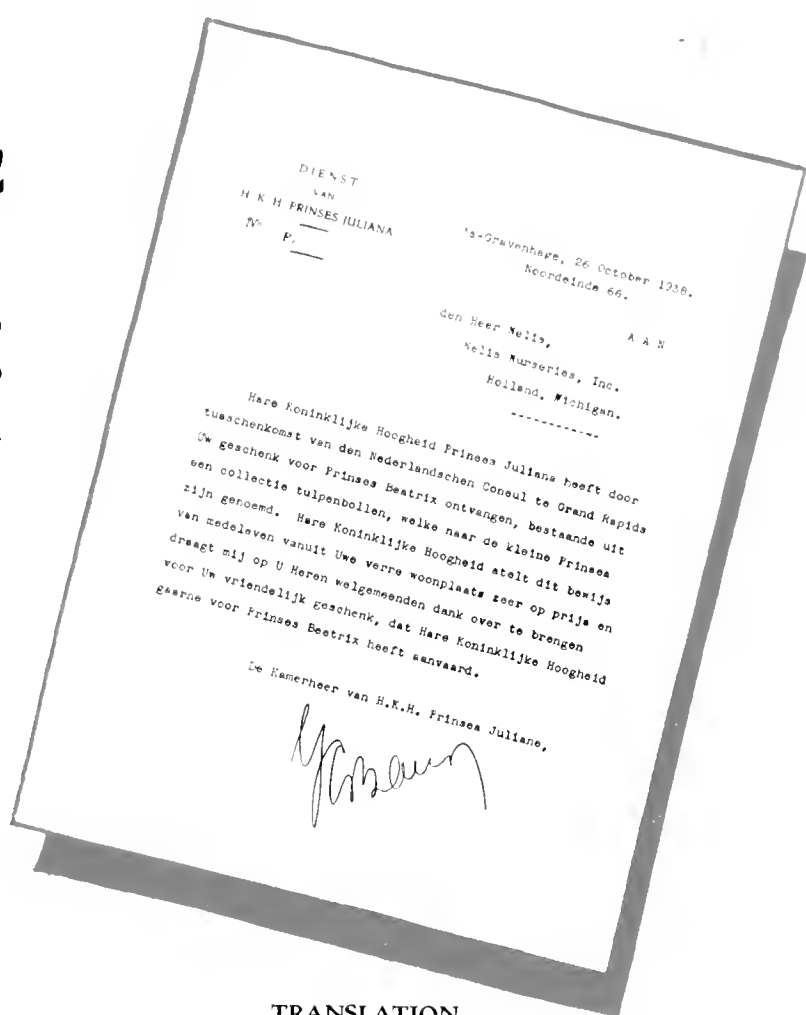

Fashions change in Tulips the same as with everything else. We have dropped from this catalog all the varieties that are out-moded and have added those which best exemplify the current vogue. Go through the listings carefully, and we know you'll have a grand time making up your collection for next year's Tulip garden.

GUARANTEE

Except where clearly stated otherwise in this catalog, we unconditionally guarantee every bulb we ship out to be strictly top size, and to be absolutely true to name. All bulbs shipped by us will grow and bloom under ordinary conditions. We have, however, no control over unfavorable weather or soil conditions, improper planting, neglect, moles or mice, and therefore cannot assume responsibility after they reach you. Stock not reaching you in first class condition should be reported within 10 days after receipt, and will be replaced free of charge if so received. After ten days it is mutually agreed that stock is satisfactory. Do not return bulbs or plants unless so instructed by us.

TRANSLATION

Her Royal Highness Princess Juliana has received from the Netherlands Consul at Grand Rapids your present for Princess Beatrix, consisting of a shipment of Tulip bulbs, which are named after the little princess.

Her Royal Highness greatly appreciates your thoughtfulness from your American home, and instructs me to bring to you her hearty thanks for your friendly present, which her Royal Highness has gladly accepted for Princess Beatrix.

CHAMBERLAIN OF HER ROYAL HIGHNESS,
PRINCESS JULIANA.

THREE NELIS *Exclusives*

The three varieties listed below are exclusively Nelis products, and cannot be had anywhere else, as we own all the stock. Try some of them in your next order, and you will be delightfully surprised.

Princess Beatrix

30 inches. A gorgeous and stately new Tulip of a lovely warm shade of true pink, with clearly defined lines of silver. Fine lines of blue running to a blue base. A large, substantial, yet beautifully shaped flower carried on a graceful, tall stem. Slightly fragrant. 3 for 75c; \$3.00 per doz.; \$22.00 per 100.

Miss Lida Rogers

18 inches. A very unusual and striking flower of a chocolate-colored red, with a narrow white border. Of medium height, with long-lasting blooming qualities. This flower was named in honor of Miss Lida Rogers for her proposal to start the Holland Tulip Festival, which has now become nationally famous. 3 for 45c; \$1.50 per doz.; \$11.00 per 100.

Mrs. Ethel Telling

30 inches. A brilliant carmine-crimson having a beautiful satiny sheen. A very large, oblong and imposing flower on a very tall, strong stem. An outstanding new novelty which when once seen is firmly fixed in memory. Named in honor of Mrs. Ethel Telling, former chairman of the Holland, Michigan, Tulip Time committee, for her untiring efforts in promoting and directing this great floral festival. 3 for 60c; \$2.00 per doz.; \$15.00 per 100.

New Introductions

IT has been our policy for years to show to the American public at our extensive display fields the latest varieties available in Tulip bulbs. The listing we have available for 1939 is as nearly complete as may be desired, and contains varieties which probably will not be handled by the average seedsmen or growers for another decade. We have connections with the foremost hybridizers in the world to supply us with their outstanding novelties, and we are glad to be able to have these varieties available for the real flower lovers of our country. It must be remembered that no new varieties are offered for sale unless they are better than any standard varieties in existence heretofore.

| Pyramis. Occasionally we have a Tulip which seems almost impossible to describe accurately. It is an olive-colored orange, with lilac shadings. Exceptionally strong grower, and an equally free bloomer. At our last trial many plants had 3 to 6 flowers per plant | \$0.50 | \$2.00 |
| Scarlet Leader. Its name expresses its appearance perfectly. Color is of beautiful fiery scarlet, without any markings. We find this variety a wonderful improvement of the still better known variety Scarlet Beauty | 1.20 | 4.00 |
| Stanislaus. 18 inches. Lovely flowers of very bright and glittering orange, with pointed and reflexed petals. A Tulip of delicate beauty | 2.75 | 10.00 |
| Tubergen's Glory. One of the most imposing of the salmon-red color. The gorgeously rich colored blossom is of large size and perfect form | 1.50 | 5.00 |
| Velvet Beauty. 29 inches. A magnificent clearest purple flower with a white base. Blossom is of immense size and carried on a very strong stem. One of the finest clear purples we know | .90 | 3.25 |
| Wall Street. 30 inches. One of the newest additions in the tall golden yellows, in our opinion far superior to Yellow Giant, with yellow stamens | .65 | 2.00 |
| White Raven. 30 inches. A delightful ivory-white Tulip, inside lemon-yellow, with yellow anthers. Excellent for exhibition purposes. The large oblong flower is carried on a tall strong stem. Highly recommended | .60 | 2.30 |

Nelis Giant May-Flowering Tulips

THE modern Giant May-Flowering Tulip is the result of three separate experiments of Tulip breeding, formerly classified as Darwin, Cottage and Breeder Tulips. Through the interbreeding of the three before mentioned classes the terms Darwin, Cottage (or Hybrid) and Breeder Tulips still listed in so many catalogs has become so confusing that even among the best informed there are many clashes of opinion. Since the modern Giant May-Flowering Tulips contain the

blood of all the three proceeding crosses in proportions now unknown to even the plant breeders themselves, it seems silly to maintain this class distinction any longer, as they are both scientifically and practically absolutely meaningless.

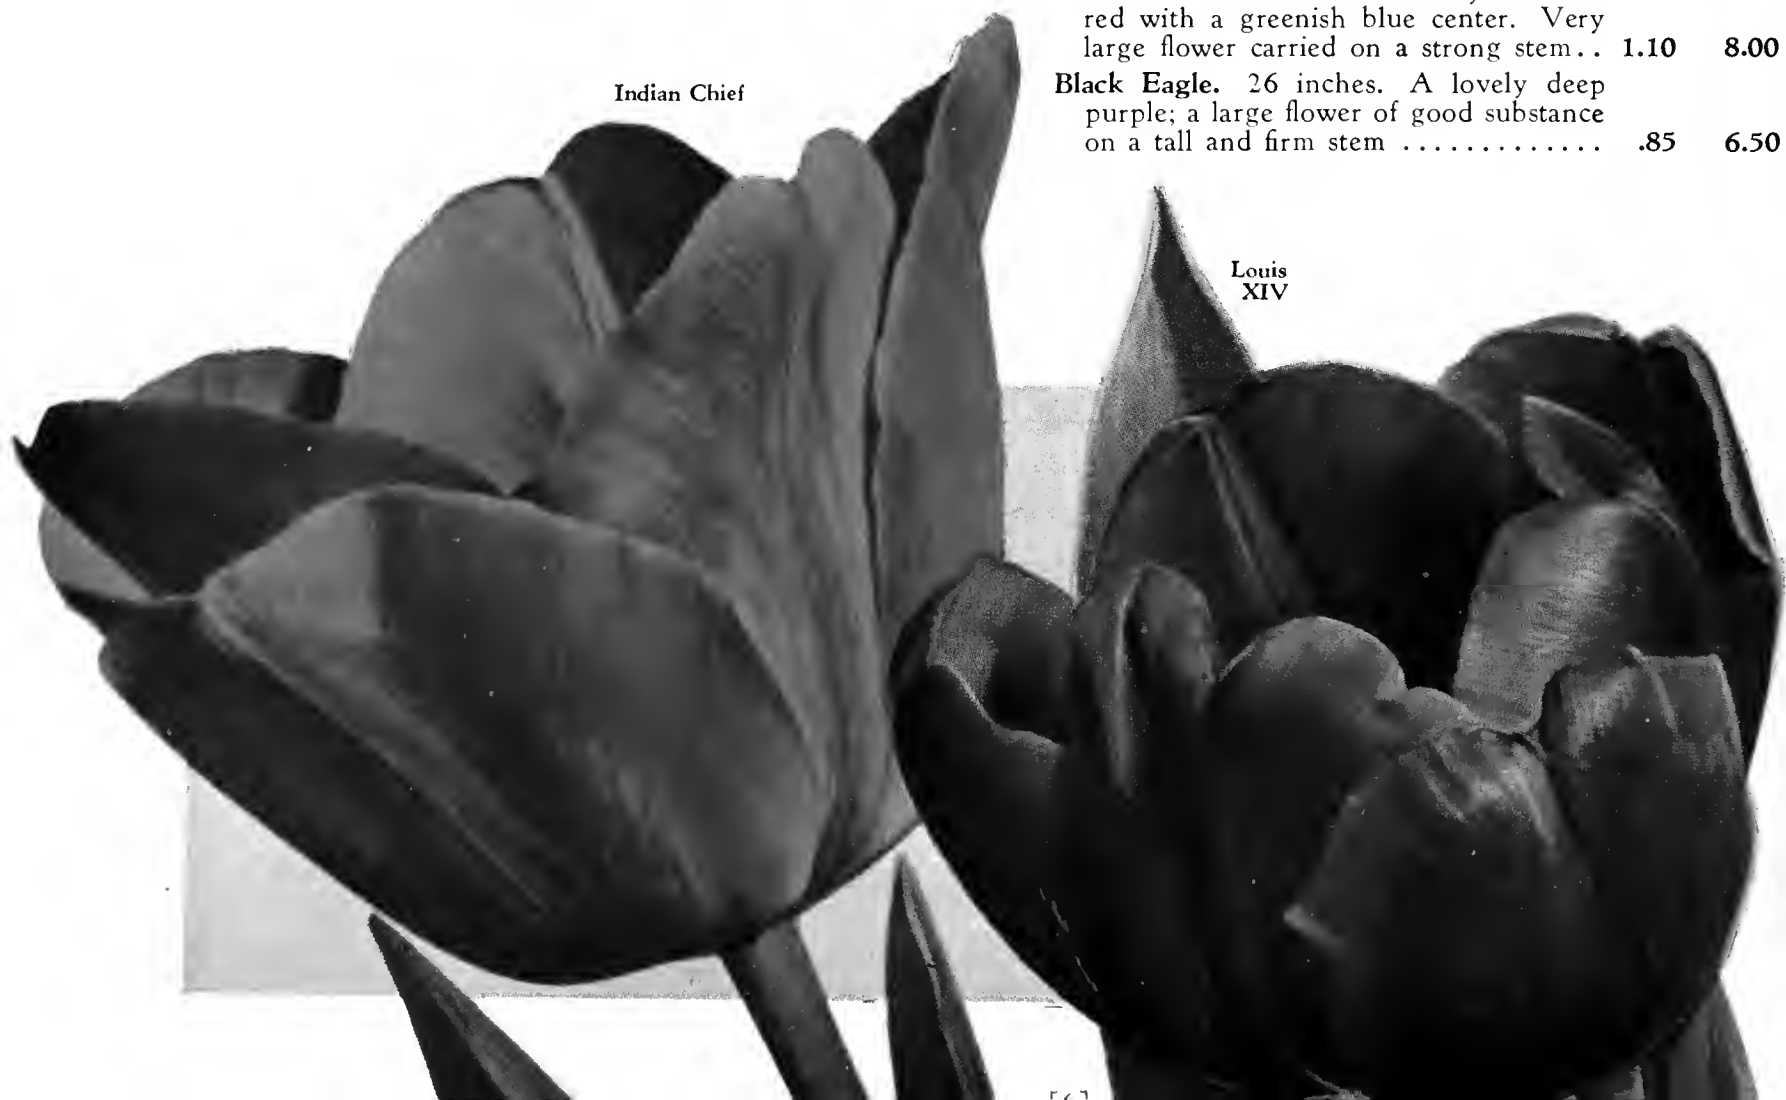

We, therefore, will list them from now on as Giant May-Flowering Tulips. The term May-Flowering is based on our Michigan climate, and in southern locations the blooming period will, of course, be earlier.

The number after the variety name indicates the height at blooming time.

Novelty PARROT TULIPS

Here is a complete list of the most outstanding novelties in Parrot Tulips. These new Parrots, in contrast to the old type, all have heavy firm stems to keep the flowers erect, and are a valuable addition to any garden. These new types, strange to say, have all sported from the more popular varieties long known to the flower lover. Most everyone has admired Parrot Tulip Fantasy, which variety is by far the best known of this new type, and which has sported from the well-known Darwin Tulip, Clara Butt. They are so entirely different from all the other flowers that they provoke the startled admiration of all who see them.

PARROT TULIPS

The petals of this class of Tulips are fringed at the edges, and are very peculiarly marked and feathered, resembling, before opening, a parrot's neck. The average height of these is about 16 inches. 80c per doz.; \$6.00 per 100.

Giant Flowering TRIUMPH

Elizabeth
Evers

Shenandoah

This new race, which blooms about 8 days earlier than the Darwin type, is becoming better known every year, and during our annual Tulip show more and more people are becoming interested in it. The average height is shorter than the Darwins, but they are of extremely sturdy growth, and therefore are excellent for bedding purposes. The varieties we have listed here are among the best.

Double ~ Triumph Tulips (Peony-Flowering Type)

These double varieties are extremely showy, with flowers as large as Peonies, and come in an extraordinary range of colors. They have created a remarkable interest, and in the past nearly all the available supply has been bought by our "Tulip Time" visitors, who were able to see them in bloom. As real novelties we want to recommend them for exhibition or show purposes. Being of very latest introduction, quantity of bulbs is limited, and early orders are more apt to insure delivery.

Bunch-Flowered TULIPS

- Clipper. 24 inches. Sulphur-yellow; a new introduction and color offering of the bunch-flowering type. Recommended but very scarce\$3.50
- Madame Mottet. 24 inches. Similar to Monsieur Mottet. Color cerise-red shaded purple; flowers are slightly stronger but about as many to the stem 2.00
- Monsieur Mottet. 24 inches. Ivory-white color, and instead of producing one flower on a stem as other Tulips do, it carries from four to six blossoms, which are all in bloom at the same time. The result is a unique cut flower and also an excellent garden variety. We would like to see it included in every collection95 7.25
- Torch Red. 28 inches. Deep crimson-red, producing from three to six blossoms to the plant. Flowers all bloom at the same time. 3 for 75c 2.50 19.25

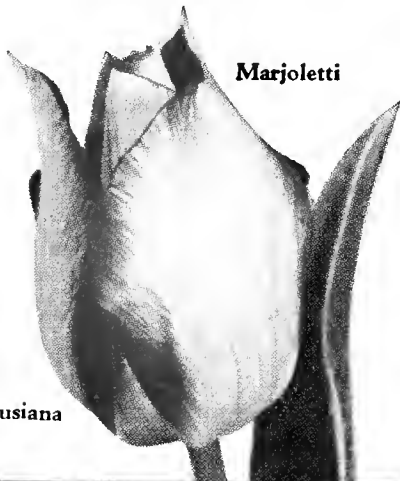

BOTANICAL TULIPS

These wild Tulips come in lovely odd shapes, many with reflexed petals and curiously twisted and reflexed foliage. They belong in the rock garden where they thrive and increase if left in the ground from year to year. Plant them in groups of six to twelve bulbs among the rocks in fairly well-drained pockets. We have eliminated all varieties of inferior and poor blooming qualities, and only those varieties that have given satisfaction under American conditions have been listed.

- BATALINI. 6 inches. Soft chrome-yellow with deeper yellow center. A very pretty species with dainty flowers of distinct form and color. Identical in form and shape to Lini-folia. 3 for \$1.95\$6.50
- CHRYSANTHA. 8 inches. One of the smallest species in existence; a real novelty. Color rich yellow with rose exterior85 6.50
- CLUSIANA. (Little Lady Tulip.) 10 inches. Outer petals cherry-red, inner petals white with violet base. Excellent for rock garden. Originally found in Asia Minor90 6.50

Paper-White NARCISSI

Suitable for indoor growing in pots, gravel, sand or fiber. Can be had in bloom from Christmas until Easter. Plant different lots every two weeks from October first until March first. Will give you an abundance of beautiful flowers during the winter. Not suitable for outdoor planting except south of the Carolinas. We offer only jumbo or exhibition size bulbs. Price, 65c per doz.; \$4.25 per 100.

Golden-Yellow Paper-White Narcissi

Soleit d'Or resembles the Paper-White Narcissus in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. Grow in shallow bowls of water with enough pebbles, stones or soil to keep them from toppling over when in bloom. Will bloom from four to six weeks after planting. Exhibition size bulbs only. \$2.00 per doz.; \$15.00 per 100.

Golden Yellow Narcissus

SPECIAL OFFER in Seedling Narcissi

We were fortunate to buy from one of the best hybridizers in the world a limited number of extraordinary seedlings as ill health forced the originator to discontinue his labors.

Each individual bulb is of high enough standard to produce a variety of its own, and bear its own name. Each plant is different from the other, practically all having red-orange or scarlet centers, and are the finest seedlings we have ever seen, and therefore we cannot recommend them too highly. Here is your chance to enjoy something really so new and surprisingly beautiful for so little, besides, Narcissi make a permanent planting for you to enjoy for many years. 6 for \$1.40; 12 for \$2.65; 25 for \$5.00.

NARCISSI or

IN order to have a beautiful bulb garden, Narcissi should be planted very freely. They thrive in practically any climate in the United States. They are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long straight stems have made them favorites for cut flower purposes with every American gardener.

In order to understand the different types coming under the Daffodil classification, the following explanation should be read.

By the term perianth is meant the outer petals of the flower. The trumpet is the long cup or trumpet-shaped center. The crown or cup is the short or flat center.

The term Trumpet Daffodils means that the trumpet is as long or longer than the perianth segments, regardless whether the color is lemon, yellow or white.

The term Incomparabilis means that the cup or crown measures from one-third to nearly the length of the perianth segments.

The term Leedsi means that the perianth is white, the cup is short, either white, citron or sometimes pink or apricot.

The term Barri means that the cup or crown measures less than one-third of the length of the perianth segments.

The term Jonquil means that the foliage is very long and narrow, or round, in other words, rushlike; the flowers buttercup yellow, small, but very fragrant.

The term Poetaz means the bunch-flowering type, producing from 6 to 12 flowers per stem, and in all cases deliciously fragrant.

DAFFODILS for NATURALIZING

Suitable for Woodland Planting, Cutting or Garden Display

Practically any soil has been found suitable and they are grown equally well in the open as among trees and in woodland.

Containing a mixture of Large Trumpets, Leeds, Barri and Poeticus types, making a mixture that cannot be beaten for value, and worth much more than we charge for them. Plant at least 8 inches deep, but avoid places where water may collect at any time, as they like drainage.

Try to plant them before October 15th, or shortly thereafter, but place your order early, as the demand is increasing for these bulbs at this special low price we have adopted, and we cannot take orders for less than 100 bulbs.

Price \$3.50 per 100; \$30.00 per 1000

BOTANICAL DAFFODILS

— or Species

We recommend these Narcissi for rock gardens or some partially shaded place in your garden. Cover the first year with 3 or 4 inches of mulch, peat moss, or other fine material. When established they may remain undisturbed for years. Botanical Daffodils cannot stand any manure.

Miniature FLOWERING BULBS

for the rock garden

Snowdrops

Muscari

ERANTHIS (Winter Aconite)

Early in spring the golden yellow Buttercup-like flowers look charming, resting on an emerald-green cushion of leaves forming a striking contrast to the Snowdrops and Scillas. The foliage remains long after the flowers. Especially valuable in moist situations under trees and in the rock garden. Height 6 inches. 50c per doz.; \$3.50 per 100.

FRITILLARIA MELEAGRIS

Dwarf spring-flowering plants bearing large bell-shaped flowers of various colors, yellow, white, black, purple, striped and splashed. They are invaluable for pot culture and when grown in large groups in the garden. They require a dry situation. Height 10 inches. 50c per doz.; \$3.50 per 100.

CHIONODOXA (Glory-of-the-Snow)

An early-flowering spring bulb for borders or rocky. Produces flower spikes bearing 10 to 15 Scilla-like flowers. Perfectly hardy and should be planted close together for effect. Height 7 inches.

LUCILIAE. Deep blue with a white center. 45c per doz.; \$3.00 per 100.

SNOWDROPS (Galanthus)

Everybody knows the Snowdrops, with their little white bells coming through the snow very early in the spring. Especially attractive if planted with Scilla. Height 5 inches. 50c per doz.; \$3.50 per 100.

MUSCARI (Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of entirely different form—grapelike clusters closely set, and are wonderful cut flowers, splendid for naturalizing. Height 15 inches.

New Large-Flowering COLCHICUM

Water Lily

We are offering here a complete listing of the newest varieties of this interesting novelty. The flowers of this new type are immense, much larger than those of the Autumnale class. The blooming period is during the months of September and October. They produce very large blossoms, which are, in many instances, more than 6 inches across. The foliage, however, appears early in the spring, and dies down during the month of June. The bulbs should be planted during the month of August for outside blooming. They may also be kept indoors where they will bloom in a window, without earth or water, and after blooming the bulbs may be planted outdoors.

English Iris

In a fine mixture of colors, 80c per doz.; \$5.75 per 100.

This magnificent mixture of bulbous English Iris has been developed at our own nurseries, and contains all the choicest varieties which can possibly be had in these fine Iris. The English Iris are a bulbous Iris which bloom in our latitude about the early part of July, and come after all other Iris are through blooming. They should be planted as soon after the beginning of September as possible for best results. They prefer the more moist and heavier soils, and should have good drainage. The blooms of the English Iris are considered to be the finest of any in the Iris class, and each individual bloom is strikingly beautiful, and as cut flowers they are unsurpassed. For those who prefer named varieties we are listing as follows:

Fall Blooming GERMAN IRIS

We take great pleasure in offering a list of the finest fall bloomers in cultivation. While best results are secured with these Irises below the Mason-Dixon Line, by a little care we have obtained excellent fall bloom in Michigan. Some of the varieties listed not only bloom profusely early in spring, but under favorable conditions also produce crop after crop of flowers for more than 100 days in late summer and fall. There are as yet but comparatively few of these flowers in existence and the demand has been so great that we, as well as the few other growers who have stocks of fall bloomers, could fill only a small proportion of the orders received last year. Please order early.

COREOPSIS Lanceolata Grandiflora. Beautiful hardy perennial, 15 to 18 inches, producing its golden yellow flowers in great profusion. 3 for 75c; \$2.25 per doz.

DELPHINIUM Belladonna. 3 to 4 feet. Delicate turquoise-blue of branching habit. 3 for 75c; \$2.25 per doz.

D. Bellamosa. 3 feet. Solid, medium dark blue. 3 for 75c; \$2.25 per doz.

D., Wrexham Hollyhock Strain. 4 to 6 feet. Probably the choicest of all English strains, producing flowers of every known color and combination. Their most distinguished feature is the great size of the florets, and their peculiar setting along the spike, just like Hollyhock. 3 for 75c; \$2.25 per doz.

DIGITALIS (Foxglove). **Giant Shirley Hybrids.** Flower heads are over 3 feet long, crowded with big bell-shaped blossoms. Colors range from white, pink to deepest rose. Many are attractively dotted with crimson or chocolate. 3 for 75c; \$2.25 per doz.

Tritoma

FUNKIA (Plantain-Lily or Japanese Day-Lily). **Variegata.** Variegated foliage of yellow and green, blue flowers. Beautiful edging plant. 3 for 90c; \$3.00 per doz.

GAILLARDIA (Blanket Flower). **Grandiflora.** Hardy perennial, 2 feet, blooming first season. Flowers large and flat; yellow and orange, with center and varying rings of red and maroon shades. Mixed. 3 for 75c; \$2.25 per doz.

GYPSOPHILA (Baby's Breath). **Bristol Fairy.** A sensational new development of the double-flowered Gypsophila, a very valuable cutting subject, with much larger florets in fuller panicles; the blooming season naturally longer, and possibly continuous all summer. Pure white, slightly blushed in cool weather. 50c each; 3 for \$1.25.

HEMEROCALLIS (Day Lily). **Flava. Lemon Lily.** Sweet scented, clear yellow flower. 2½ feet. Flowers in June. 3 for 75c; \$2.25 per doz.

Foxgloves

ORIENTAL POPPIES.

Beauty of Livermore. Deep oxblood-red with black blotch. 3 for 75c; \$2.25 per doz.

Mrs. Perry. Orange-apricot with faint lilac suffusion. 3 for 75c; \$2.25 per doz.

Perry's White. Very large and shapely, pure white. 3 for \$1.25; \$4.00 per doz.

Shipping season for Poppies is during August and September. Poppies planted at other times usually fail.

PYRETHRUM Roseum Hybridum (Painted Daisy). Showy hardy perennials, blooming the first season, if sown early. 2- to 3-inch Daisy-like flowers in white, rose, crimson and scarlet. The foliage is finely cut and fernlike. 2 feet. Mixed. 3 for 75c; \$2.25 per doz.

TRITOMA PFITZERI, Superb Strain (The Red-Hot Poker). Semi-tropical and showiest of all garden plants in bloom. Rushlike foliage with thick flower stalks a yard long, a single fiery cone at top. Brilliant scarlet; lower petals rimmed with orange. Blooms July to October. Magnificent cut flower. Use heavy winter mulch. 3 for 70c; \$2.25 per doz.

YUCCA (Adam's Needle). **Filamentosa.** There is nothing more effective and striking for isolated positions on the lawn. It is indispensable for the large rockery. Its broad, swordlike, variegated foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject, wherever placed. 3 for 75c; \$2.50 per doz.

Nature's Way to a Productive Soil

Plants are living, growing things. Like everything else that lives, they need a congenial environment. For plants, this means a favorable climate, and more important still, a correct soil. Soil is made up of two kinds of material: one is mineral or inorganic; the other is vegetable or organic. Both are essential as sources of plant food; but the organic material, generally called humus, plays by far the most important part. Peat Moss is the most desirable type of humus that is known.

Superior Brand Peat Moss gives the soil a loose, soft texture that absorbs warmth and energy from the sun. It takes up surplus available plant food and gradually releases it as the plants need it. Besides, the Peat aids in the growing of certain bacterial organisms essential to the plant's activity.

Superior Brand Peat Moss results from the partial, natural decay of great deposits of the sedge moss laid down ages ago in the bogs of Michigan. It is pure vegetable matter, free from weed seeds and excessive woody tissues, disease spores and impurities. It improves soils that are too light and sandy, giving them body and coherence and to heavy soils it gives life and porousness. As it has a loose, spongy texture it takes up from ten to fifteen times its own weight in water. By holding the moisture longer, Superior Brand Peat Moss tends to keep down the water bills even while it is growing more lovely gardens.

Superior Brand Peat Moss is excellent as a mulch. A layer of the loose, fluffy material on the top of the ground will greatly check evaporation. Applied from one to five inches deep it conserves soil moisture and prevents erosion. In winter it protects plant roots from severe cold.

PRICES: Superior Brand Peat Moss is sold in bags, each containing two bushels. We will ship by freight, charges collect, unless you instruct otherwise. Shipping weight per bag of two bushels about 50 pounds. Price of 2 bushels (1 bag), 99c; 4 bushels (2 bags), \$1.77; 6 bushels (3 bags), \$2.57; 8 bushels (4 bags), \$3.37. Larger quantities for lawns and large plantings, \$6.50 per cubic yard. (1 cubic yard equals 22 bushels.)

2-WAY MONEY SAVING. Two bags (about 100 lbs.) can be shipped as cheaply as one bag, since freight companies make no reduction under 100 pounds; thus you save on freight when two bags are ordered. And when you order two bags you pay only 78c for the extra bag. Order two or more bags, and save money.

Tulip City Brand Raw Bone Meal

Ideal for lawns, shrubbery and all bulb stock. This is a safe fertilizer, and quicker acting than the steamed Bone Meal. We have used this brand for years on our own bulb fields. Tulips or other bulbs require from one to two pounds for one hundred bulbs. Available in: 25-lb. bags at \$1.35; 50-lb. bags at \$2.50; 100-lb. bags at \$4.00, not prepaid.

At your request we will gladly mail you free of charge a complete catalog of Gardex Soil-Flow garden tools.
